

YOU can make
the difference.

Life!

Just add water.

Life
Interrupted.

Safe water is the difference between life and death, not just for a child, but the entire family. New Life empowers mission groups that stand in the gap for poverty-stricken communities and bring far more than safe drinking water. Join with us and help bring the Living Water to a thirsty world.

- Over 80% of the disease in developing countries is related to poor drinking water and lack of sanitation.
- 88% of the deaths due to diarrheal diseases (caused by bad water, hygiene and sanitation issues) are children under 5 years old, mostly in developing countries.
- If all the world's water fit in a one gallon bucket, all of the water available to us to drink would be equivalent to only **one tablespoon.**

WHO WE ARE

New Life International is a Christian non-profit 501(c)3 organization. Our mission is to spread the news of Jesus Christ and partner with other organizations to provide safe water and a more abundant life.

Life Attained...

Just add YOU.

"I WAS THIRSTY AND YOU GAVE ME SOMETHING TO DRINK... WHATEVER YOU DID FOR ONE OF THE LEAST OF THESE... YOU DID FOR ME."

(Matthew 25:35,40)

The gift of Living Water

Our goal is to bring safe water and the Living Water, Jesus Christ, to people thirsty for abundant life. We have a special heart for unreached people groups, who have not yet heard about Jesus Christ.

A glass of safe water...

Our purifiers provide safe water within minutes. Safe water is the foundation of community development. Villages with safe water have less disease, better school attendance among children and fewer medical bills.

"BUT WHOEVER DRINKS THE WATER I GIVE THEM WILL NEVER THIRST. INDEED, THE WATER I GIVE THEM WILL BECOME IN THEM A SPRING OF WATER WELLING UP TO ETERNAL LIFE."

(John 14:4)

Around the World

- The New Life International water purifier has been in use for 15 years.
- The purifier, combined with a car battery and ordinary table salt, generates chlorine gas and kills bacteria, parasites and viruses.
- It can provide quick, economical water treatment for whole villages.
- The purifier is bringing safe water to villages, churches, orphanages and hospitals.
- More than 3,000 purifiers are in over 78 countries around the world.
